EXHIBIT SERVICES

FAQ – EXHIBITOR BOOTH SECURITY SERVICES

WHY HIRE A SECURITY GUARD?

Booth Security guards are there for Security Presence and Asset Protection.

WHAT INFORMATION DO YOU NEED IN ORDER FOR ME TO HIRE A GUARD?

It is important for us to know any special instructions such as:

- What the clients main concerns are
- What the guards will be protecting or watching out for
- Where they would like the guard to be placed (depending on the size of the booth)
- Client name and contact info (whom will the guard report to in the booth)
- Any other client expectations

The information provided by the exhibitors is included in the order as a security note.

WHAT OTHER IMPORTANT INFORMATION DO I NEED TO KNOW BEFORE HIRING A GUARD?

It is important to note that a briefing time of 15 minutes prior to the security guard's start time is required to ensure the guard receives all the instructions they need before arriving at the job post. All briefings take place at the Security Office and the guard receives his briefing and deployment by our base guards.
